## Growing Children

One-third of all the children die before they are five years old. Most of them die of some wasting disease. They grow very slowly; keep thin in flesh; are fretful; food does not do them much good. You can't say they have any disease, yet they never prosper. A slight cold, or some stomach and bowel trouble takes them away easily.

SCOTT'S EMULSION of Cod-liver Oil with Hypophosphites is just the remedy for growing children. It makes hard flesh; sound flesh; not soft, flabby fat. It makes strong bones, healthy nerves. It changes poor children to children rich in prosperity.

Book about it free for the asking. No substitute for Scott's Emulsion will do for the children what we know Scott's Emulsion will do. Get the genuine.  
For sale by all druggists at 50c. and \$1.00.

### An Election Wager Paid.

THE settling of an election wager last week was the cause of a certain confident Paris man finding it convenient to stand while he ate several meals. So sure was he that his favorite would be nominated for jailer that he gave certain Parisians the privilege of paddling him if his candidate failed to win. The candidate lost and for ten days the confident man avoided his usual haunts and his old friends. One night last week, however, he was caught and taken to a lively stable and the wager was settled in the most approved style by a heavy paddle wielded vigorously by the willing arms of the successful wagerer.

Yet the life of every Expectant Mother is beset with danger and all effort should be made to avoid it, so assists nature in the change taking place that the Expectant Mother is enabled to look forward without dread, suffering or gloomy forebodings, to the hour when she experiences the joy of Motherhood. Its use insures safety to the lives of both Mother and Child, and she is found stronger after than before confinement—in short, it "makes Childbirth natural and easy," as so many have said. Don't be persuaded to use anything but
